

RAZA ZAHEER

Karachi, Pakistan | 03120102177 | razazaheer2002@gmail.com | [GitHub](#) · [LinkedIn](#) · [Portfolio](#)

PROFILE SUMMARY

Front-End Web Developer with 2+ years of freelance experience in React.js, Next.js, and JavaScript (ES6+), expanding into full-stack and AI-integrated development. Proven track record of shipped two end-to-end production systems a real-time MERN chat platform with Socket.io and a RAG chatbot using Pinecone and LLM streaming independently architected and deployed. Strong in component-based architecture, REST APIs, and real-time systems.

EDUCATION

Iqra University

Bachelor of Science in Computer Science

Feb 2021 – Jan 2025

Karachi, Pakistan

EXPERIENCE

Frontend Development Intern

CodeAlpha

Dec 2025 – Jan 2026

Remote

- Built frontend apps; collaborated on code reviews in a team-based workflow

Front-End Web Developer (Freelance)

Self Employed

Jan 2023 – Present

Karachi, Pakistan (Remote)

- Built responsive web apps using React.js, Next.js, and JavaScript; improved user engagement by **35%**
- Integrated RESTful APIs and ensured cross-browser, mobile-first design with **100% on-time delivery**
- Used Git and GitHub for version control and collaboration

PROJECTS

Real-Time Chat Application | React.js, Node.js, Express, MongoDB, Socket.io

- Architected a full-stack **MERN chat platform** with **JWT authentication**, multi-room channels, and private 1-on-1 messaging — all synced instantly via **Socket.io** WebSocket events with zero page reloads
- Built live presence tracking, typing indicators, message persistence in **MongoDB Atlas**, and **Cloudinary**-powered profile uploads
- Deployed a split production architecture (**Vercel** frontend + **Dockerized** Node.js backend), independently resolving cross-origin auth, WebSocket reconnection, and CORS issues — [GitHub](#) | [Live Demo](#)

PDF RAG Chatbot | NestJS, Next.js, TypeScript, Pinecone, LangChain, OpenRouter AI

- Built a full-stack AI chatbot powered by a complete **RAG pipeline**: uploaded PDFs are chunked, embedded, and stored in **Pinecone Vector DB** for context-aware retrieval
- Engineered a modular **NestJS REST API** with **LangChain** orchestration, out-of-scope query detection, and real-time **Server-Sent Events** streaming from **Google Gemma LLM** to a responsive **Next.js** frontend — [GitHub](#)

Quiz Web App (MCQ Platform) | Next.js, React, JavaScript

- Built a multi-category quiz platform with dynamic question rendering and real-time score tracking using React state management, improving session engagement by **30%** — [Live Demo](#)

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Responsive Design

Backend & DB: Node.js, Express.js, NestJS, RESTful API Design, MongoDB, SQL, JWT Authentication

Real-Time & AI: Socket.io, RAG Pipelines, LangChain, Vector Databases (Pinecone), LLM Integration

Tools: Git, GitHub, VS Code, Docker, Vercel, Netlify
